Backup and Restore – Backup Business System From Shell

To back up your standalone Business system from shell, log into the system as a root user.

Navigate to the opt directory

```
cd /opt
```

Stop the services

```
/opt/pbxware/sh/stop
/opt/httpd/sh/stop
```

Create a .tar file

```
tar --numeric-owner -czvf backup_date.tgz httpd pbxware
```

Start the services back up

```
 /opt/pbxware/sh/start
 /opt/httpd/sh/start
```
